

MONIMAX 7600DAXL

Full-Function Through-the-Wall ATM

Hyosung is dedicated to making technology work for the humans who use it. We provide solutions that simply work better and more intuitively. Every ATM product, service, and support system is engineered to be reliable and flexible. We listen to our customers and continually improve our offerings to reflect their input. We bring that innovation to banking. It is this commitment to human technology that has made us a dependable partner and global leader in the ever-changing world of banking.

MAXIMUM RELIABILITY

Monimax 7600DAXL is designed to provide reliability that is second to none in the market, with the highest uptime and with minimum maintenance needs. Both the cash dispenser and mixed-media depository rank best in class across the industry. The **Monimax 7600DAXL** is the ideal solution for through-the-wall ATMs.

FLEXIBILITY

Monimax series ATMs are designed with modular components that allow for easy upgrades of future technology. The ability to upgrade modules provides a financial institution the ability to save on investments in the ATM channel.

ULTIMATE FUNCTIONALITY

Monimax 7600DAXL has options to include technology that will enable a financial institution's mobile-integration strategy. We believe that NFC and other methods of authentication will be an important part of future strategies.

MAXIMUM PROTECTION

Complying to standards in various regions worldwide, Nautilus Hyosung offers advanced security measures. The highly secured integrity of the **Monimax 7600DAXL** prevents any attempted security breaches from occurring. **Monimax 7600DAXL** is also easily integrated with any monitoring solutions to provide seamless data transfer for effective management of self-service channels.

ENVIRONMENT STEWARDSHIP

With quality also comes responsibility. **Monimax** series ATMs are equipped with energy-saving features like low-energy LCDs and long-lasting ATM parts with minimum implications to the environment. The deposit automation feature also saves tons of paper over time, giving you the power to build your image as an earth-friendly company.
