

Teller Cash Recycler with Unprecedented Convenience and Speed

The **MoniSafe 400A** from Nautilus Hyosung provides enhanced productivity and security in the branch. Simplifying cash transactions, the **MoniSafe 400A** reduces back office cash handling leading to improved service through reduced wait times. Sales performance is enhanced through better interaction between staff and customer.

EXPERIENCE THE POWER OF CHANGE.

UNSURPASSED USABILITY

- The **MoniSafe 400A** provides real-time visibility to cash levels through an integrated 7" touchscreen. The unit supports multiple tellers simultaneously.

EASY MAINTENANCE

- The **MoniSafe 400A** incorporates technology that enables it to clear many jams without human intervention. In the event of failure, the unit is equipped with the ability to illustrate (on a 7" LCD) the point of failure and intuitively lead personnel to the jam. The unit can often be returned to service by the staff rather than relying on specialized service providers.

MAXIMUM PROTECTION

- The **MoniSafe 400A** operates with seven secure storage cassettes inside a certified safe. The design significantly reduces cash exposure in comparison to competitive products based on roller storage technology.

ENHANCED PRODUCTIVITY

- Advanced cash recycling technology built by Nautilus Hyosung simplifies and accelerates cash transactions, reducing monotonous and repetitive tasks. Reducing cash balancing time helps tellers to focus on customers service and cross-selling.

System Control

- Microsoft® Windows ®

Customer Interface

- 7" Wide LCD with Touch Screen
- Display Unit Status, Note counting and guidance messages
- Error or Jamming point display

Communication

- TCP/IP

Printers
